● OPEN TO 2026 INTERNSHIP OPPORTUNITIES

PROFILE / 01

Security Technology undergraduate seeking an internship in penetration testing, cloud security, or network security. Building practical foundations in vulnerability assessment, least-privilege review, malware behavior analysis, cryptography, and clear security documentation.

ACADEMIC PROOF / 02

CURRENT CGPA

3.79

B.IT (Hons.)

DEAN'S LIST

2x

2025

MUET BAND

4.0

CEFR B2

SELECTED SECURITY LABS / 03

01 Vulnerability Assessment

Reconnaissance, weakness validation, risk rating, and remediation evidence writing.

02 Cloud Security Baseline

Identity, storage, network exposure, logging, and least-privilege review.

03 Malware Behavior Analysis

Suspicious behavior, indicators, persistence ideas, and defensive observations.

EXPERIENCE / 04

2023 - 2024 / SINGAPORE

IT Support

Technical troubleshooting, device readiness, and day-to-day user support in a professional environment.

2022 - 2023 / SINGAPORE

Administrative Assistant

Operational coordination, documentation, and accurate communication with consistent follow-through.

EDUCATION / 05

MULTIMEDIA UNIVERSITY

Bachelor of Information Technology (Honours), Security Technology

CORE CAPABILITIES / 06

Pentesting foundations

Reconnaissance, validation, risk rating, remediation notes

Cloud and network

Identity, least privilege, storage exposure, logging, baselines

Analysis and defense

Malware indicators, persistence ideas, defensive signals

Security principles

Hashing, encryption, authentication, key handling

RELEVANT STUDY / 07

Ethical Hacking / Applied Cryptography / Digital Forensics / Computer Security / Cybersecurity Law

ACTIVITIES / 08

PROSOLVE National 2025 / Infineon Interview Event volunteer / MMU IT Club / Dragon Boat Club
