PROFILE

Security Technology undergraduate seeking an internship in penetration testing, cloud security, or network security. Practical foundations include vulnerability assessment, least-privilege reviews, cryptography, malware behavior analysis, and clear security documentation.

EDUCATION

MULTIMEDIA UNIVERSITY, Faculty of Information Science & Technology

Bachelor of Information Technology (Honours), Security Technology

CURRENT CGPA	3.79	ACADEMIC RECOGNITION	Dean's List, 2x
RELEVANT STUDY	Ethical Hacking, Applied Cryptography, Digital Forensics, Computer Security, Cybersecurity Law		

SECURITY CAPABILITIES

Pentesting Foundations Reconnaissance, weakness validation, risk rating, remediation notes	Cloud and Network Security Identity, least privilege, storage, exposure, logging, baseline reviews
Analysis and Defense Malware behavior indicators, persistence ideas, defensive signals	Security Principles Hashing, encryption, authentication, key handling, cybersecurity law

SELECTED SECURITY LABS

Vulnerability Assessment Lab

Reconnaissance, weakness validation, risk rating, and remediation evidence writing.

Cloud Security Baseline Study

Identity, storage, network exposure, logging, and least-privilege reviews.

Malware Behavior Analysis Notes

Suspicious behavior, indicators, persistence ideas, and defensive observations.

EXPERIENCE

2023 - 2024	IT Support Singapore Supported technical troubleshooting, device readiness, and day-to-day user assistance in a professional environment.
2022 - 2023	Administrative Assistant Singapore Handled operational coordination, documentation, and clear communication with accuracy and follow-through.

ADDITIONAL EVIDENCE

MUET	4.0 CEFR B2	ACTIVITIES	PROSOLVE NATIONAL 2025 Infineon Interview Event volunteer MMU IT Club and Dragon Boat Club
